

Ninety Years Old and Living the “Green Dream”

Founded in 1919, in Chicago, House of Doolittle® has been offering quality calendar products for more than 90 years. The Doolittle product line has been green now for more than 20 years with more than 200 recycled products made in the USA.

In 1988 House of Doolittle’s® GREEN DREAM began. We started looking seriously at our processes and our materials and seeking out ways to make our products in a more environmentally responsible way. It was clear that converting our operation to one that used recycled materials was something we needed to do!

Products that keep tomorrow in mind. Manufacturing recycled products uses less energy than goods made from virgin materials. Buying recycled products keeps recycling programs going and saves natural resources.

Since 1990 our ENTIRE product line has been made using recycled paper. This is true of the over 200 appointment planners, desk pads, wall calendars and laminated wall planners currently being offered by House of Doolittle®. The quality is better than ever and we have converted all of these products without adding cost to the product.

We continue to be on the leading edge utilizing the most Eco-Friendly materials and manufacturing processes. The majority of our products are made using 100% post-consumer fiber paper that is processed chlorine-free (PCF). We print all our products using soy-based inks and are made in the USA. House of Doolittle® donates 5% of our profits to organizations that are working to create a more sustainable environment.

House of Doolittle® offers a dozen themes sized to fit your calendar needs:

- Desk Pad Calendars
- Wall Calendars
- Laminated Wall Planners
